

EduGenie Customer Journey Map

Target User

Students, self-learners, and educators.

Customer Journey

Stage	User Action	User Problem	EduGenie Solution
Discover	User opens EduGenie	User does not know where to begin	Simple feature cards
Ask	User submits a question	Online answers may be confusing	Direct AI answer
Understand	User requests an explanation	Concept may be difficult	Level-based explanation
Practice	User generates a quiz	User may not have practice material	Topic-specific quiz
Review	User pastes study material	Material may be lengthy	AI summary and key points
Plan	User requests a roadmap	User does not know what to learn next	Personalized learning path
Improve	User repeats practice	User wants better understanding	Follow-up questions and examples

User Expectations

- Simple and accurate answers
- Fast response
- Beginner-friendly explanations
- Useful examples
- Easy quiz generation
- Structured learning roadmap
- Responsive interface

Main Pain Points

- Difficult educational language
- Large amounts of study material
- Lack of personalized guidance
- Limited practice questions
- Confusing learning sequences

Opportunities

EduGenie can improve the learning experience by combining explanation, practice, summarization, and roadmap creation in one application.
